SAFETY DATA SHEET

MBF 1001, 1002, 1004, 1005, 1006, 1007, 1008, 1010, 1011,

1012, 1020, 1022

Section 1. Identification		
GHS product identifier	: MBF 1001, 1002, 1004, 1005, 1006, 1007, 1008, 1010, 1011, 1012, 1020, 1022	
Product code	: Not available.	
Other means of identification	: Amorphous Braze Foil	
Product type	: Massive metal.	
Relevant identified uses of	the substance or mixture and uses advised against	
Product use	: Brazing.	
Area of application	: Industrial applications.	
Supplier's details	: Metglas, Inc. 440 Allied Drive, Conway, SC 29526 United States Telephone: 843-349-6800 www.metglas.com	
e-mail address of person responsible for this SDS	: john.schwindel@metglas.com and william.coughlan@metglas.com	
Emergency telephone number (with hours of operation)	: Manufacturer: 800-581-7654 (24/7) CHEMTREC: 800-424-9300 (24/7)	
Section 2. Hazard	ds identification	
OSHA/HCS status	: This material is considered hazardous by the OSHA Hazard Communication Standard	

OSHA/HCS status	 This material is considered hazardous by the OSHA Hazard Communication Standard (29 CFR 1910.1200). 	
Classification of the substance or mixture	: H317 SKIN SENSITIZATION - Category 1 H351 CARCINOGENICITY - Category 2 H372 SPECIFIC TARGET ORGAN TOXICITY (REPEATED EXPOSURE) - Category 1	
GHS label elements		
Hazard pictograms		
Signal word	: Danger	
Hazard statements	 H317 - May cause an allergic skin reaction. H351 - Suspected of causing cancer. H372 - Causes damage to organs through prolonged or repeated exposure. (respiratory tract) 	
Precautionary statements		
Date of issue/Date of revision	: 07/17/2020 Date of previous issue : No previous validation Version : 1 1/12	

United States

Section 2. Hazards identification

Prevention	 P201 - Obtain special instructions before use. P280 - Wear protective gloves. Wear protective clothing. Wear eye or face protection. P260 - Do not breathe dust. P270 - Do not eat, drink or smoke when using this product.
Response	 P308 + P313 - IF exposed or concerned: Get medical advice or attention. P363 - Wash contaminated clothing before reuse. P302 + P352 - IF ON SKIN: Wash with plenty of water.
Storage	: Not applicable.
Disposal	: P501 - Dispose of contents and container in accordance with all local, regional, national and international regulations.
Hazards not otherwise classified	: None known.

Section 3. Composition/information on ingredients

Substance/mixture	: Mixture
Other means of	: Amorphous Braze Foil
identification	

Ingredient name	Other names	%	CAS number
Nickel	-	22 - 100	7440-02-0
palladium	-	0 - 50	7440-05-3
Chromium	-	0 - 12	7440-47-3
silicon	-	0 - 7	7440-21-3
molybdenum	-	0 - 5	7439-98-7
boron	-	0 - 4	7440-42-8

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health and hence require reporting in this section.

Section 4. First aid measures

Description of necess	ary first aid measures
Eye contact	: Get medical attention.
Inhalation	: Not applicable.
Skin contact	: Wash with plenty of soap and water. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. Continue to rinse for at least 10 minutes. Get medical attention. In the event of any complaints or symptoms, avoid further exposure. Cuts should be treated promptly and covered.
Ingestion	: Not applicable.
Most important sympt	toms/effects, acute and delayed
Potential acute healt	h effects
Eye contact	: Not applicable.

Date of issue/Date of revision	: 07/17/2020 Date of previous issue	: No previous validation	Version : 1	2/12
Eye contact	: No specific data.			
<u>Over-exposure signs/syn</u>	<u>iptoms</u>			
Ingestion	: Not applicable.			
Skin contact	: May cause an allergic skin reaction.			
Inhalation	: Not applicable.			
Lye contact	· Not applicable.			

Date	of	issue/Date	of	revision

Section 4. First aid measures

Inhalation	: No specific data.
Skin contact	: Adverse symptoms may include the following: irritation redness
Ingestion	: No specific data.
Indication of immediate n	nedical attention and special treatment needed, if necessary
Notes to physician	 Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Specific treatments	: No specific treatment.

Protection of first-aiders	 No action shall be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.
	containing the output with watch before removing it, or wear gives.

See toxicological information (Section 11)

Section 5. Fire-fighting measures

Extinguishing media	
Suitable extinguishing media	: Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media	: Do not use water jet.
Specific hazards arising from the chemical	: No specific fire or explosion hazard.
Hazardous thermal decomposition products	: Decomposition products may include the following materials: metal oxide/oxides Vapor (Toxic)
Special protective actions for fire-fighters	 Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.
Special protective equipment for fire-fighters	: No special protection is required.

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures		
For non-emergency personnel	 No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Put on appropriate personal protective equipment. 	
For emergency responders	: If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".	
Environmental precautions	: No specific hazard.	
Methods and materials for containment and cleaning up		

Small spill	: Restack safely.	Take care with items that are sharp or heav	٧y.
-------------	-------------------	---	-----

Date of issue/Date of revision : 07/17/2020	Date of previous issue	: No previous validation	Version : 1	3/12
---	------------------------	--------------------------	-------------	------

Section 6. Accidental release measures

Large spill

: Restack safely. Take care with items that are sharp or heavy. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Precautions for safe handling

Protective measures		Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Take care with items that are sharp or heavy.
Advice on general occupational hygiene	:	Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	:	Store in accordance with local regulations. Store locked up. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

Control parameters

Occupational exposure limits

Ingredient name	Exposure limits
Nickel	ACGIH TLV (United States, 3/2019).
	TWA: 1.5 mg/m ³ 8 hours. Form: Inhalable fraction
	NIOSH REL (United States, 10/2016).
	TWA: 0.015 mg/m ³ , (as Ni) 10 hours.
	OSHA PEL (United States, 5/2018).
	TWA: 1 mg/m ³ , (as Ni) 8 hours.
palladium	None.
Chromium	ACGIH TLV (United States, 3/2019).
	TWA: 0.5 mg/m ³ , (measured as Cr) 8 hours. Form:
	Inhalable fraction
	NIOSH REL (United States, 10/2016).
	TWA: 0.5 mg/m ³ 8 hours.

Date of issue/Date of revision

4/12

Section 8. Exposure controls/personal protection

Appropriate engineering controls	o special ventilation requirements. If user operations generate dust, fumes, gas,
	apor or mist, use process enclosures, local exhaust ventilation or other engineering ontrols to keep worker exposure to airborne contaminants below any recommended o atutory limits.
Environmental exposure controls	ot applicable.
Individual protection measure	
Hygiene measures	Yash hands, forearms and face thoroughly after handling chemical products, before ating, smoking and using the lavatory and at the end of the working period. opropriate techniques should be used to remove potentially contaminated clothing. ontaminated work clothing should not be allowed out of the workplace. Wash ontaminated clothing before reusing. Ensure that eyewash stations and safety nowers are close to the workstation location. Wash thoroughly after handling.
Eye/face protection	afety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, ases or dusts. If contact is possible, the following protection should be worn, unless e assessment indicates a higher degree of protection: safety glasses with side- nields.
Skin protection	
Hand protection	se strong, cut-resistant gloves suitable for handling metals.
Body protection	ersonal protective equipment for the body should be selected based on the task being erformed and the risks involved and should be approved by a specialist before andling this product.
Other skin protection	opropriate footwear and any additional skin protection measures should be selected ased on the task being performed and the risks involved and should be approved by a becialist before handling this product.
Respiratory protection	ot applicable.

Section 9. Physical and chemical properties

Appearance	
Physical state	: Solid. [foil]
Color	: Metallic-gray.
Odor	: Odorless.
Odor threshold	: Not available.
рН	: Not available.
Melting point	: 772 to 1020°C (1421.6 to 1868°F)
Boiling point	: Not available.
Flash point	: Not available.
Evaporation rate	: Not available.
Flammability (solid, gas)	: Not available.
Lower and upper explosive (flammable) limits	: Not available.
Vapor pressure	: Not available.
Vapor density	: Not available.
Relative density	: 8.8 to 11 [Water = 1]
Density	: Not available.
Solubility	: Insoluble in the following materials: cold water and hot water.

Date of issue/Date of revision

Section 9. Physical and chemical properties

Partition coefficient: n- octanol/water	:	Not available.
Auto-ignition temperature	:	Not available.
Decomposition temperature	:	Not available.
SADT	:	Not available.
Viscosity	:	Not available.
Flow time (ISO 2431)	:	Not available.

Section 10. Stabil	ity and reactivity
Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur. Under normal conditions of storage and use, hazardous polymerization will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: Reactive or incompatible with the following materials: moisture. Corrosive material
Hazardous decomposition products	: Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 13. Disposal considerations

Disposal methods	: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a
	safe way. Empty containers or liners may retain some product residues.
